

CASTLE HILL

CAR OWNERSHIP AND ALTERNATE TRANSPORT SURVEY

*Dear Resident,*

We are also keen to plan a sustainable development going forward and we would like to add the following questions.

<b>Post Code</b>	<input type="text"/>
<b>Number of cars owned currently at the property</b>	<input type="text"/>
<b>If we provided a car club* would you be interested in participating (Y/N)</b>	<input type="text"/>
<b>If we provided bicycle sharing system** here, like schemes found in central London would you use them (Y/N)</b>	<input type="text"/>

\**Car Club* - is a short-term car rental service that allow members access to locally parked cars and pay by the minute, hour, or day. Car clubs offer an alternative model to private car ownership for individuals and businesses.

\*\* *Bike sharing system* – is a service in which bicycles are made available for shared use to individuals on a short term basis for a price or free. Many bike share systems allow people to borrow a bike from a "dock" and return it at another dock belonging to the same system. Docks are special bike racks that lock the bike, and only release it by computer control. The user enters payment information, and the computer unlocks a bike. The user returns the bike by placing it in the dock, which locks it in place. Other systems are dockless.

***Please return this survey to the survey box at the Castle Hill community centre by August 31<sup>st</sup>.***

Thank you for taking this survey!
